Media Madness

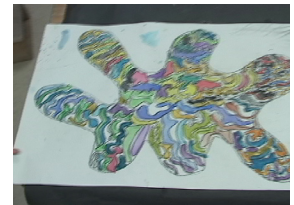

AS SEEN ON TV!

But wait there's more! "For a limited time only," students will choose a product and make an infomercial from the ground up. Write, shoot, edit and show! Satisfaction Guaranteed!

The Artist's Studio

Really work like the pros! In this creative setting, students get to dive into a rich range of materials including paint, ink drawings, collage, paper mache and ceramics. The week ends with a "Gallery Showcase" for parents and community.

Music Machine

Find your voice by learning how to sing and play instruments to the beat of a different drum! Cultural and popular music intermixed in a fast paced setting really brings out student's vocal, rhythmic talents while furthering their appreciation for music.

Reader's Theatre

What's better than reading a good book? Children getting to explore the fun and magic of reading award winning stories while actually getting to do the activities they read about. Role playing and character exploration brings the child right into the story.
