## We Make Science FUN!

### CAMP 1

#### SCIENCE EXPLORATIONS for ages 6-12

Explore the world of science! Discover space travel as you prep your "egg-stronaut" for flight and build your very own flying orbiter. Design your own crash test helmet to protect your "egg-cellent" partner. Use the rays of the sun to make a tasty treat, change the color of beads, and turn a shadow into a picture. Figure out the trick of tight ropes with the help of C.G. Owl. Send your friends secret messages using chemical reactions. Discover your scientific passion by exploring life, earth, and physical science.

### CAMP 2

#### MOVING WITH SCIENCE for ages 6-12

Discover how things move with science. Take apart pellets to see what an owl cannot digest! View the world through a camera obscura. Join a team of camper engineers and build bridges, domes, cubes, and pyramids. Assemble and control pulleys, levers, catapults, and simple machines. Make your own sidewalk chalk, crystal gardens, and chromatography-dyed T-shirt!

### CAMP 3

#### SECRET AGENT LAB for ages 6-12

Go inside a scientist's lab and discover the secrets you've always wondered about. Use your skills as a chemist to make your own radical reactions with batteries, a chemical clock, and more. Compare fingerprints and discover the mysteries of DNA as you fine-tune your secret agent skills. Make "brain goo" and check out your bones as you travel the organ trail and uncover the secrets of your own body. Become a Mad Science detective and use your forensic skills to solve the "Great Cookie Caper."

### CAMP 4

#### ROCKIN' ROCKETS for ages 6-12

Mad Science invites you to launch your knowledge of flight as you build your very own rockets. Experiment with different kinds of propulsion systems as you use your new knowledge to blast off, track, and recover different kinds of rockets. Treat your stomach to some rocket snacks. Have a "Rockin'" good time at this rocket camp!

### CAMP 5

#### WINGS AND THINGS for ages 6-12

Let your imagination take flight as we join Sir Isaac Newton and prepare for aerospace adventures with his laws of motion. Design, build, and test fantastic flying creations including kites, planes, rockets, hovercrafts and more. Learn all about the Wright Brothers and their numerous contributions to aviation. Discover the star secrets of the universe with your own planisphere. Experiment with the laws of physics, gravity and motion during this amazing week of hands-on fun.

### CAMP 6

#### LET'S GET GROWING for preschoolers

Investigate the science of gardening with this fun summer camp for the youngest scientist. Cultivate your interest in life science as you learn about things that grow in gardens. Study insects, weather, plants, and soil indoors with occasional trips outdoors for additional exploration. Mad Science will give the smallest scientist a wonderful week of hands-on fun.

### CAMP 7

#### RED HOT ROBOTS for ages 7-12 \*

Join us for a week of fun with robots. Learn about the uses of robots in our world. Spend time playing with super-cool red-hot robots. Use your skills to build your very own working robot to take home to "live" with you. Join us this summer in our Mad Science robot world. This camp requires a \$30 per child supply fee. \* For ages 7 (or entering 2nd grade) - 12.

### CAMP 8

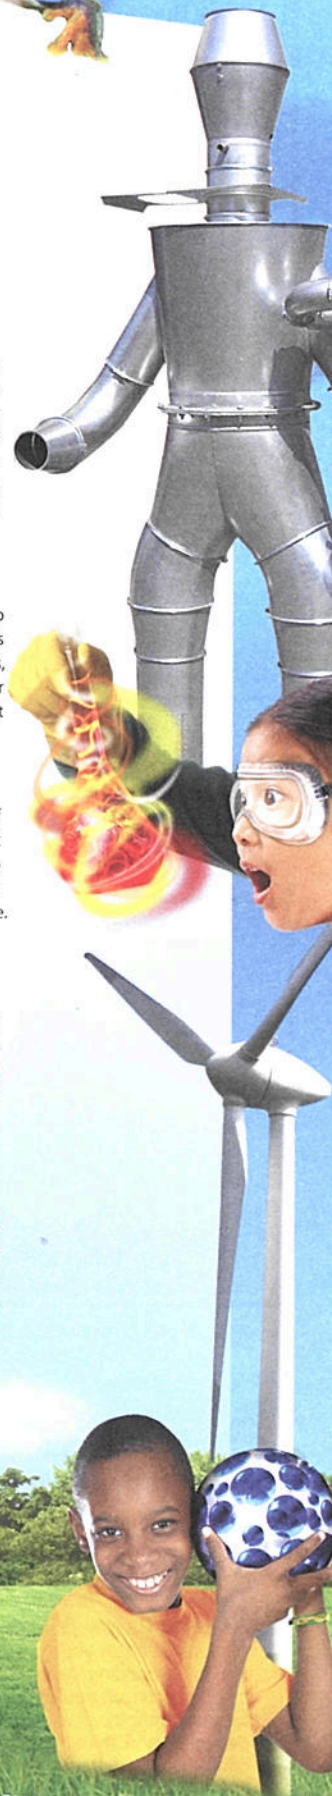

#### SPY ACADEMY for ages 6-12

Become a Mad Science secret spy and take a fascinating journey into the world of detection, forensics and classified information. Go undercover and decode messages from other agents using your top secret clearance. Join the Mad Science Bureau of Investigation and sniff out forgeries and counterfeits.

### CAMP 9

#### CAMP EUREKA! for ages 6-12

This is a camp designed to inspire the inventor and scientist in you! Each day overcome challenges using basic materials, tips from world famous inventors, your newly acquired science knowledge and the most important thing of all - your mind. Thomas Edison said "Invention is 10% inspiration and 90% perspiration." This camp is 100% fun!
